## About This Content

Play as the mysterious new character TSYGAN, a rogue insurgent that joins the Core Guardians in defending the only enclave of humanity left on the planet LOEK III. Road to ElySION features a new area to explore with four new maps, new unlockable towers, weapons and perks! This DLC is the first out of four contained in the Sanctum 2 Season Pass.

**Note:** Road to ElySION is included in the Sanctum 2 [Season Pass](#) and is part 1/4 in a series of DLC for Sanctum 2

## Key Features:

- New Playable Character - TSYGAN, the “Rogue Insurgent”
- 4 New Unique Maps – adding refreshing new tactics and replayability.
- 2 Weapons - Rapid-firing Gatling Laser & TSYGANs own handheld Ballista!
- 2 Towers - Range Spire that dramatically increases the range of nearby offensive towers and the Slow Field Dispenser letting you strengthen your choke points further!
- Enhanced Enemies - From new support monsters that heal and mutate the attacking horde to a brand new aerial enemy boss, players should be prepared for this heightened challenge.
- Additional Perks – Customize your character even more with six new perks, including a perk that gives you an in-game

---

pet robot that will fight for you!

Coffee Stain Studios  
Publisher:  
Coffee Stain Publishing  
Release Date: 26 Jun, 2013

a09c17d780

English,German,French,Italian,Russian

---

First DLC of the series and I am not disappointed. Quite a lot of content for the price. The new class is pretty fun to use too. If you like Sanctum 2, you will like the DLC too.. LOL @their promotional video for this DLC. They definitely know how to be cringy.. I recommend getting this DLC as part of the complete pack. Sanctum 2 would be too short without any of its DLC content to lengthen it and add depth. This add-on features a useful new character, some useful new turrets and the most FRUSTRATING battles in the entire complete pack game. This is the most frustrating of the DLCs. Be warned, kill off those mutator enemies (which make enemies much stronger if you let them live long) and healing enemies first. They will be a pain to deal with from now on. Despite the frustration which this DLC offers i still consider it an integral part of Sanctum 2 and if you like the game you should not miss this DLC.. (Sanctum 2 - Road to Elyision)

The first and most recommended of the Sanctum 2 DLCs in terms of content that applies to the entire game, Road to Elyision adds an entire new character, TSYGAN, as well as the Range Spire, one of the more useful turrets.

Unfortunately, this is also the DLC that adds the healer and mutator enemies, as well as Fiskeplaske, one of the more annoying and goofy bosses. This... basically makes it one of the more frustrating DLCs to actually play through, in my opinion - I got stuck on this one for a good while, whereas the others I completed quickly after they came out.. Great add-on to the game, a new character with interesting weapons, 4 new maps and 2 new towers. It also adds 6 more perks.. Choosing a best DLC for sanctum2? Choose this one it has the best maps&weapons.. I would recommend this game to any who like FPS and/or Towerdefence, it captures both aspects very well and coordinates it into what we see. 8/10. Tsygan is a very nice character.. This DLC adds 2 new towers, arguably both are pretty useless, slow field dispenser works just like a mine dispenser, upgrade it enough and you can place max of 3 deployable slowfields anywhere on the map. Would be cool if there wasn't already a Kairos tower that pretty much projects a slowfield around itself, and the radius in which it does so is pretty good. There's no reason to pick it over Kairos. The second tower increases the range of other towers, for some strats it's amazing, but most of the time you won't really need it and it's gonna be useless.

4 new maps are pretty nice additions to the mix as well. A new character is okay but nothing too special and the new perks are quite good.

But, this DLC introduces 2 of the most absolutely fuc\*ing cheap a\$\$ enemies in the entire game that will make you hate this DLC pack with a fiery passion. A mutator, enemy that can mutate other lumes making them stronger/make them into bullet sponges, there's no limit to how many times it can level up a lume, they come in packs, 5 can come from 1 direction and 5 from another and they always follow other lumes, move fast and are bullet sponges.

Another type of enemy is the healer, which will latch itself onto a lume and heal them, it needs to be killed fast in order to damage the lume it's attached to. Since this DLC does not introduce the Anti Air tower, an enemy like this is just a colossal mistake. Especially when you see that they can latch onto a boss as well, a couple of them at the same time. Not hard to kill, but just a nuisance that would've been better left on the cutting room floor. .

Whoever thought this was a great addition to the game I hope you stub your little toe in every piece of furniture in your house, every single day. Save yourself the suffering and avoid this dlc like a plague.. Sanctum 2: Road to Elyision, great DLC. I loved that they added a new playable character. I hope to see them continue that trend if we get Sanctum 3 some day, the more playable characters the better in my opinion.

---

Buy all the DLC, you won't regret it. I can't get enough of Sanctum 2, its a great game.. Adds value to the game and story. I might say that these DLC are more structured then the main game.. \u2665\u2665\u2665\u2665 the mutators.. awesome dlc and one of the worst trailers ever devised as a thing for video games that makes me question buying this. dlc is still fun though just don't watch the trailer  
for the love of god do not play it it is eye\u2665\u2665\u2665\u2665\u2665\u2665
